

# CLASSROOM SPOTLIGHT

## Fifth Grade

The Holy Family fifth graders are enjoying hands-on work in their classes, including science experiments like “Observing the Effects of Plant Fertilizer in Pond Water.” Next month, they will be creating a PowerPoint presentation on the Solar System, and in Social Studies, students are studying famous Americans. In English they are studying voice where they are working in groups to write a play and are rewriting a children’s story from a different character’s perspective. Also, the fifth graders were an integral part of the beautiful Living Nativity in December.

What’s Cool  
About Fifth  
Grade?

### Heard in the Halls...

“The coolest thing about 5<sup>th</sup> grade is getting to have lockers!”

“We get iPads!”

“The coolest thing about 5<sup>th</sup> grade is the teachers!”

“We get to use pens!”

“The coolest thing is that we get to do science experiments!”

“We get to do fun projects!”

Mrs. Muller has been a teacher at HFCS for 10 years, teaching 3<sup>rd</sup>, 5<sup>th</sup> and 6<sup>th</sup> grades, devoting the past 7 years to teaching 5<sup>th</sup> and 6<sup>th</sup> Grade Science. She began her teaching career at Christ the King and has been a teacher for 17 years. In her free time, Mrs. Muller enjoys cooking, traveling, scuba diving, and spending time with her family.

Mrs. Oehmann has been a teacher at HFCS for the past 8 years, teaching 5<sup>th</sup> and 6<sup>th</sup> grade Literature. She began her teaching career at San Juan Del Rio and has been a teacher in the Diocese of St. Augustine for 12 years. When not teaching, Mrs. Oehmann loves to read and enjoys camping with her family. She and her husband are also very involved with the Catholic Engaged Encounter, a ministry that prepares couples for marriage in the Catholic Church.
